

# ALFREDO BLANCO

• Full Stack Developer •

## ABOUT ME

I'm a person who likes challenges, teamwork and learning new things everyday.

I'm a fullStack developer and an engineer in progress.

## SKILLS

### Tech skills

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| - JavaScript | - Express.js | - PostgreSQL | - CSS        |
| - Node.js    | - Redux      | - MongoDB    | - Tailwind   |
| - React.js   | - Sequelize  | - Solidity   | - Typescript |
| - Next.js    | - HTML       | - Web3       |              |

## EXPERIENCE

### 2022 Company: **Settling Group**

I was hired as a freelance to develop their web page.  
It took two months of work to achieve the final result.  
It can be seen by this link: <https://www.settling.com.ar/>

### 2022 **Dogs PI**

- It's an app that consumes information about dogs breeds from an API, and allows the user to create, update and delete a breed.  
-Project link: <https://pi-dogs-beryl.vercel.app/>

### 2022 **NFTickets**

- Its a platform of events tickets in which the user can create events and buy tickets.  
- The whole app is made with Web3 technology, every ticket is an NFT and every event is a smart contract.  
-The information of the contracts is consumed from the blockchain.

## LANGUAGES

**Spanish** Native

**English** Conversacional
